## ABOUT ME

I am a software and game development student at SMK Wikrama Bogor. I focused on the front-end. Currently, I am learning the Laravel programming language. I am very excited to learn new programming languages and create something new.

## EXPERIENCE

FRONT-END

2023

### EkskulKuy.ID

Take part in creating the appearance on the eskulkuy.id website, this project was created to simplify the extracurricular process at school.

FULL STACK

2023

### Wikrama Mosque

Plays an important role in the entire website, creating the appearance and creating functions on the website. This website is used to see progress or the latest information on the construction of the Wikrama Vocational School (al-ikhram) mosque and to make it easier for donors who want to participate online.

FULL STACK

2023

### Peminjaman

plays an active role in creating goods lending websites, both in the front-end and back-end areas. This website was created to make it easier for admins to input data on students who want to borrow laptops, cellphones or LAN adapters.
